good morning prof. I really like your approach in teaching. I love that our class always have webex. Notes and explanation also well prepared and really sufficient. Another thing is, I love that prof give us clear instructions on assignment and always tell us early. The timetable for the lecture also given early to us and also the activity during lecture like forums are well prepared beforehand. If I ever be a lecturer one day, I want to be a lecturer like you. Thankyou

Although this is the first time we are introduced with this course, but I enjoy a lot with your lecture, Prof. You always never miss to have webex with us for every lecture and on time. I am so thankful and grateful for this as I can improve my understanding for each topic by your clear explanations, not only just reading notes by myself. I am also happy as we can quickly get our marks and answer scheme for the previous test. By this, we are able to know the best way and correct our mistakes in answering the questions. Plus, you always concern and care about us and that is shown by your interaction with us. Thank you so much Prof. Can't wait to see you in campus, Prof. ♥

First of all, I would like to thank Prof. Lua for your dedication and effort in teaching and disciplining all your students throughout the semester. I appreciate your sacrifices and your will to allocate time for our live lecture session despite your packed schedule. You are indeed a discipline and well-organized lecturer as your whole teaching plan was outlined very precisely in the beginning of the course. The live webex sessions conducted are also very helpful for understandings. The assignments are also bearable, yet I am really nervous for the upcoming presentation since I know you are expecting the best from your students.

Thanks again Prof. Lua for everything that you have done for us.

Every lecture is fun and understood well. Every assignment given are helpful in improving my understanding. There is no major problem in finishing the task given; the task given is not too burden. Prof's effort in making time to be with us every week is highly appreciated. Even with odl, prof train us to be discipline. Prof's way of notifying us early in whatsapp and kelip also help us to arrange our time better. Prof's lecture note is not too long and easy to understand; with the color markers, the bullet point etc. Thank you prof

First of all, I want to say thank you to Prof Lua for being willing to teach us for this subject.

This subject is very interesting because its taught me about the basic characteristics of being a pharmacist and how an organization in the pharmaceutical sectors operates.

All the lecture notes that provides is very satisfied but it is normal to take time to understand every lecture.

My comment on Prof Lua's teaching is Prof Lua is discipline and punctual person. From that, it improve me to be a more discipline person. Other than that, Prof Lua also a very caring lecturer where she really cares about her students even in online learning situation.'

My overall comments on this course and the teaching style is very good and nice.

First of all, I would like to thank you for spending your time with us in teaching the fundamentals of pharmacy practice. You also taught us about discipline, moral and attitude that should be had as a great student and future employee. For the lectures, I would like to tell you it is great and easy to understand both lesson and notes provided. The lecture notes were packed with enough information. At last, I will do my best for the exam and the upcoming presentation. May the success be with us altogether. Thank you, Prof.

Hi and good morning prof overall for me,i really like your teaching style because you always show and do your best during the lecture session and indirectly makes me more understand about this subject. You also not just teaching about the topics but you always advise us in every class to make sure us to be better person.Lastly, what i can say is thank you for everything Prof.

Feedback on Prof Lua's Teaching

by [Nur Azwa Hisham](#) - Tuesday, 25 May 2021, 10:05 AM

- Teaching material

I find all the slides very informational, sufficient and related to the course. If I read your slides, I find it unnecessary to do other readings as I feel like I understand every part of it. Other materials like Youtube videos are also helpful to strengthen my understanding and give me insights into a real pharmacist's workflow.

- Teaching methods

I personally prefer video conference teaching method like Webex, so I really enjoy your class Prof. It increases my understanding and I can directly ask you questions in case any curiosity or problems arise. It also creates a bond between us as a class.

- Tests

The biweekly quizzes are good platforms to recall previous lessons. It is not burdening and simply acts as a refresher. The midsemester test was nerve-racking since it was our first time actually facing an exam, but I think it was a good preparation for the finals.

Thank you Prof for your 11 weeks worth of lectures. I truly appreciate your efforts in making up for the inevitable crisis we are facing now. In our next semesters, I wish to have classes face to face with you. :)

Good morning prof. Thank you prof for having live session with us even though you are busy. We really appreciate that. I hope you can teach us like this or face to face in the next semester. I like your class because you are very punctual. it teaches me to also be punctual in every class. I love your style of teaching because I feel I learn something on your class. Honestly, I feel lost sometimes when there is no live session on other subject. Thank you so much prof for teaching us.

Hi Prof. First of all. I would like to say thank you for all your efforts in making sure that you have time for us every week. Truly appreciate it.

Honestly, I am truly satisfied with your teaching method as I am a person who more prefer my lecturer to explain some part of the notes if not all. That way, I can understand the topic better as you use analogy and words that are simple for me to understand. Thank you prof.

For this course, most of the chapters are interesting for me as it is closely related to myself who is also a patient. And it also provide me an insight on how my work environment would be. If not for Covid, this course will be so interesting as we may listen to your story in the class but now it is limited due to the data consuming problem.

Things that can be improved for me is maybe prof can record the webex session and upload it in KeLIP because like me, sometimes my line is not so good at certain times and your voice became not clear. Overall, I am satisfied with you teaching prof! May we have an opportunity to meet at UniSZA soon :) Thank you prof and have a nice day.

Overall for this course I enjoyed the learning process because it is new for me and comprised of interesting topics. I love prof lua's lecturing style because prof always told us her experience as pharmacists so as the lectures won't be too boring to listen to. In terms of time management, prof is really strict for it. I felt very sorry as I once missed a webex session. I promise I would enter the class as punctual as possible. For prof's kelip activities, everything is very systematic and well-organised compared to other lecturers, so it is very easy to refer. Thank u so much prof. I can obviously see prof's 100% effort to make us easier to follow the virtual classes. I'm appreciating it.

First of all i would like to thank prof for all the teaching.

the slide was very informative but there are sometimes the use of higher vocab it makes me hard to understand the content. But since we are in higher level of study so it is understandable for it.

the way prof giving lecture is good and im grateful that prof give the lecture as it will help us to understand more about the slide. But sometimes the lecture is fast that make me miss some important info in it.

overall prof way of teaching is really good. I really hope that we can do face to face lecture with prof.

good morning and hi prof, so along i have done being teach from you for this subject for this sem, there are feedbacks that i have:

- you are very punctual person, always on the meeting earlier than the webex time and wait for your students
- prof juga seorang yang sanggup mengorbankan masa untuk mengajar kami walaupun prof busy dengan bengkel and meeting, tetapi prof cuba sedaya upaya untuk mengajar kami
- saya suka subject ini sebab pensyarahnya suka mengajar, kadang-kadang bukan semua student yang dapat input 100% dari pembacaan, dan disini perlunya sesi mengajar daripada pensyarah
- dengan belajar subjek ini, saya dapat mengetahui tentang bagaimana nak biasakan dan terapkan budaya farmasi dalam kehidupan harian
- saya harap prof akan mengajar seperti ini lagi untuk sem akan datang tapi harapnya boleh bersua muka.

I was able to gain so much of knowledge through this subject. The contents were sufficient enough for me to understand the basics of pharmacy practice. The duration for each webex session is usually not very long. However, the way prof teaches by giving suitable explanation and give real life examples makes learning much easier and understandable. I enjoyed every class of yours prof! Also, I have realised that prof plans things ahead and very systematic in arranging every webex session, quiz, forum and assignments for us. Even during a busy schedule, prof has always been dedicated enough to teach us although it was only for 15 minutes.

Along with that, I was also able to improve my discipline and punctuality through this class and be able to apply this in other classes too. Thank you prof for always reminding us the importance of being punctual and disciplined.

Hi good morning prof. Honestly i want to say thank you so much for always having time to teach us on live for every classes. You are the only lecturer that is willing to do so despite your busy schedule. As far as i know, i think prof is very punctual, responsible and kind. even though prof was strict in class attendance and strict in marking paper, but prof is very understanding. thus, you always ask our conditions, our health and our problems at home. We are very happy to receive much love although we haven't met face to face yet. You teach us a lot to be a discipline student. thank you so much prof.
