In first 7-week, I learned about introduction to basic pharmacology, pharmacokinetics and pharmacodynamics. Although the topics were quite hard and complicated to understand, but prof. make it easier to me to understand.

Lecture notes & teaching materials that prof. prepared were the best. The lecture notes were neatly arranged. The lecture notes also simple, easy to understand and pack with knowledge and ideas about the subject. Teaching material that prof. prepared for us make us understand better.

For teaching style (clarity, delivery, class management etc.), I really enjoyed basic pharmacology class with prof. Prof's teaching style was interesting, and not make us boring. Prof's stories about life, teaching us to be a good persons make the lecture time more cheerful. Prof's also punctual during lecture and followed the class scheduled as been stated. I'm so happy and enjoyed learn basic pharmacology with Prof. Thank you prof.

On my behalf, throughout the 7 weeks learning this course, i find this course is quite interesting and fun to be learn with all those sorts of information about drugs. Next, the lecture notes and teaching materials provided for me is enough and quite satisfaction with not only the lecture during class but also the notes is uploaded in kelip so that i can do revision by referring to these. Besides, it also have a video to help me understand more and more about the topic that i have learn it in the class. Last but not least, the teaching style that being used by prof is not boring and attract my interest. The class management was perfect with on time class and no class cancel meanwhile the delivery and clarity during teaching was good as i can get it on time and voice was loud but only at some times the teaching is quite fast.
