

ACKNOWLEDGEMENT LETTER FOR BELOVED LECTURER

Dear Dr Ho Lee Hoon,

I would like to express my special thanks of gratitude to you for guiding and inspiring me throughout my journey as Food Technology student at UniSZA. Thank you doesn't adequately express my gratitude for the golden memories and experience you gave me.

The 1st time I learnt of baking was through you. You helped me understand the science in baking and also the technical skills in it. Then, you also guided me through food product development which are useful till today in my career. You are a lecturer who sacrificed your time out of class to help us understand our studies. Besides that, the memories and bonding I had during PD class were incredible which encouraged me to participate in MIFT product developing competition as a group. You believed in me made me join the competition and strived me to achieve the best as a group by winning second place. Till now I could remember the moments and can confidently say that we would not have achieved it without you. Your love towards students shown there when you were willing to put the trust on us and guide us. Dr if you remember you told my internship supervisor that she could give me an opportunity to work there after completing my studies, the confident u placed about me to my supervisor have led her to give me the opportunity as a QA and PD Exec at the same organization. If it wasn't for you, I might not have got this opportunity. All the knowledge you showered during class are still in my memories and I still use them as a part of my work.

Thank you is an underestimated word for all the knowledge, skills, memories, encouragement and guidance you gave me. May god bless you always Dr.

Thank you from the bottom of my heart.

Yours Sincerely,

Kalai
