TESTIMONIAL FOR ASSOC. PROF. DR. JOHN TANG YEW HUAT

Associate Prof. Dr. John Tang Yew Huat joined Universiti Sultan Zainal Abidin as academican since year 2010. As the Head, School of Food Industry, I found the following qualities in Dr. Tang:

1. Dr. Tang is the subject matter expert in Food Microbiology, Food Safety and Food Toxicology. Based on the students feedback on the teaching and learning experience in his class was very positive with average score above 85% every semester. Some of the students commented they are very interested in the course taught by him although initially they are not interested in the course.
2. Besides employing conventional teaching approach, Dr. Tang also developed a mobile app as part of his teaching tool to encourage learning interest from the students. The mobile app is not limited to university students, but also aimed to educate the general public on food safety knowledge.
3. Dr. Tang also shown commentable supervision qualities to the postgraduate and undergraduate students. Based on the survey conducted, the students commented that Dr. Tang is a supportive supervisor who always encourages and helps the students to achieve the desired outcomes from their research.

Overall, Dr. Tang has a wide knowledge in his subject matter and capable of smooth deliberation of complex matters in a simple way to the students and also capable of conducting and supervising research. Please free to contact the undersigned should you required further information.

Thank you.

Yours faithfully,

DR. NURUL ZAIZULIANA ROIS ANWAR

HEAD,

SCHOOL OF FOOD INDUSTRY
